- **Experience is key.** I've been a representative for the past 2 years and have accomplished a lot with the Youth Collective, BYC and Youth Parliament. I was present for when Surrey came 2<sup>nd</sup> Nationally, collecting more than 30,000 votes in total.

Politically I've developed, but more so, my studies. Getting three 7's and four A's in GCSE's as well as going to Maths Masterclasses for 3 years at The Royal Institution and aspirations to go to Oxford, seems like the **perfect candidate**. I've been in Student Council for my whole school life and helped developed a new Kiosk which is giving a high turnover. A large metal shelter was also created in hopes to keep students dry whilst they socialise. I did DofE Bronze and Silver, and currently doing Gold. For my A-Levels, I picked Maths, Chemistry, Physics and Philosophy which I absolutely love. In April I'll become 17 and plan to take driving lessons.

Giving more opportunities for children to voice their opinions is key and something I've achieved multiple times, Surrey has been shone in a brighter light because of us at Youth Collective. It's now time to choose who should become Representative.
